Survey and research software – working knowledge

Word, PowerPoint, Canva, Power BI – working knowledge

PROFESSIONAL EXPERIENCE

IfU - Institut für Unternehmenskultur (IfU - Institute for Corporate Culture)

Jul 2025 - now

Student Assistant

I worked in market research with a focus on data management, data analysis, and process optimization. My tasks included building and maintaining a database and helping to digitize an outdated workflow. I contributed to redesigning the process into a more efficient solution using SQL and Python. Overall, my role combined analytical work with digital process improvement.

Uniklinik Aachen (University Hospital Aachen)

Mar 2026 - now

Student Research Assistant Institute of Translational Neuroscience and Clinical Psychology

I worked at TRR 379 with a focus on organizational and administrative support. My tasks included data entry, data analysis in MATLAB, and selected project management activities. I also contributed to internal coordination and the efficient handling of research-related processes. Overall, my role combined structured administrative work with data analysis and project support.

Nov 2024 - Jul 2025

RWTH Aachen

Student Research Assistant Project Management (TANDEM Mentoring)

I worked in the RWTH Mentoring Program with a focus on project and science management support. My tasks included handling applications, maintaining data, and organizing meetings and planning activities. I contributed to the coordination of a wide range of administrative and project-related processes. Overall, my role combined organizational work with project management support.

Uniklinik Aachen (University Hospital Aachen)

Nov 2022 - Mar 2026

Student Research Assistant International Research Training Group (IRTG)

I worked at the IRTG in research support with a focus on assisting several studies in different ways. My tasks included literature research, support in study design, data entry, administrative work, and assistance with department-related tasks. I also contributed to the coordination of ongoing research processes and supported various organizational activities. Overall, my role combined research assistance, administrative support, and practical involvement in study-related work.
